Minority Engineering Program of Indianapolis (MEPI) is a non profit organization that encourages and prepares underrepresented minority students to enter Science, Technology, Engineering, & Math (STEM) related career fields. The students will be equipped with the skills to succeed in today's high tech world and it will help to enhance the workforce of their community.

The program includes students from sixth thru twelfth grades. Each class size averages approximately 25 students. Students and facilitators meet monthly to embark on the learning experience. The program attracts students from all economic backgrounds from public and private schools within the Indianapolis area.
